ARUN PRASANTH M

I'm a Front End Developer with around 2 years of experience in React.js, JavaScript, Redux, Angular, TypeScript, HTML5, CSS3 and TailwindCSS, with a strong eye for design. I'm expanding my skills in Node.js, Express.js, and TypeORM, and have experience with REST APIs and MS-SQL for Full-Stack Development. Looking forward to joining a team where I can grow and contribute as a developer.

EXPERIENCE

Roles & Responsibilities

SaveData Infotech Solutions, Coimbatore.
Full Stack Developer
Nov 2023 - Apr 2025

Developed a Web Application

- Built and maintained features using React, Angular, TypeScript, HTML, and CSS.
- Implemented backend services with Node.js, Express.js, and TypeORM for data management.
- Integrated REST APIs to ensure smooth communication between the frontend and backend.
- Collaborated with the team to optimize application performance and resolve technical issues.

Designed and Developed a Static Website

- Created a responsive, user-friendly website using HTML, CSS, React, Angular, Tailwind CSS, and TypeScript.
- Focused on clean design principles and ensured cross-browser compatibility.
- Worked closely with designers to translate UI/UX concepts into functional and visually appealing components.

Deccan i Services Pvt Lmtd, Coimbatore.
Financial processor
jun 2019 - jun 2022

- I have three years of experience in US Mortgages. Gathered and organized all relevant credit and guarantee information required to document mortgage loan files for a suitable product type.
- Reviewed paperwork ensures 100% accuracy and completeness of loan applications.
- Evaluated all approved mortgage loans and managed closing for private mortgage insurance.
- I have good knowledge and techniques regarding the Lead process. Generate new innovative ideas to reduce time utilization.
- Attends seminars for developing the process knowledge and clearing doubts to co-workers.
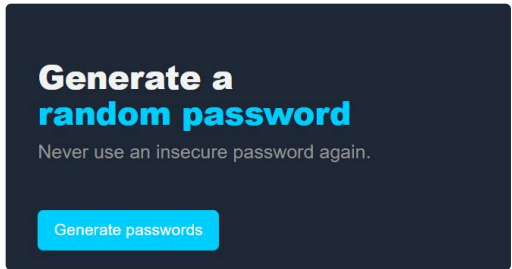

Projects

SecureVault (Finance Web Application)

- Designed and implemented the front end using Angular, creating a user-friendly, responsive interface that enhances the user experience.
- Developed the back end with Node.js and Express.js, efficiently handling server-side logic and API endpoints to ensure smooth application functionality.
- Integrated TypeORM with MySQL for robust data storage, enabling secure and efficient management of user information.
- Deployed the application on AWS, leveraging EC2, S3, and RDS to build a scalable, reliable infrastructure that supports seamless performance.
- Conducted thorough testing and debugging, optimizing the application for high performance, security, and reliability.

NethiExportsAndImports, WatAGTechnologies, SecureVault and PupilNest (Static Websites)

- **Responsive Websites:** Developed multiple websites using Angular, React and Tailwind CSS, ensuring seamless functionality across desktop, tablet, and mobile devices.
- **Dynamic UI Components:** Designed and implemented reusable, responsive components to enhance user experience and maintain consistency across pages.
- **Cross-Browser Compatibility:** Ensured optimal performance and uniformity across modern web browsers using responsive design principles and rigorous testing.
